THIGHS, WRISTS, SCROTUM, NECK**

**{TIP}
APPLY TO FACE AFTER SHAVING**

Saw Palmetto Berries – 333 mg, per ¼ tsp

Acts as a diuretic and urinary antiseptic. Stimulates the appetite. Inhibits the production of dihydrotestosterone, a hormone that contributes to the enlargement of the prostate. Good for poor appetite and prostate disorders. May also enhance sexual functioning and desire.

Pygeum Africanum – 200 mg, ¼ tsp

A native large evergreen tree native to Africa, where it has been used for a variety of health compliments. The purified fat-soluble extract of the bark of Pygeum Africanum has demonstrated clinical efficacy similar to the extract of saw palmetto. The mechanism of action appears to work via its inhibition of cholesterol uptake by the prostate, antagonizing testosterone, and reducing prostatic inflammation.

American Ginseng – 3300mg, per ¼ tsp

Strengthens the adrenal and reproductive glands. Enhances immune functions, promotes lung functioning, and stimulates the appetite. Useful for bronchitis, circulatory problems, diabetes, infertility, lack of energy and stress. Used by athletes for overall body strengthening.

Bearberry Extract, (Uva Ursi) – 366 mg, per ¼ tsp

Increases the flow of urine but has a sedative and tonic effect on the bladder wall. Acts as an astringent, diuretic, tonic. Bearberry helps to reduce accumulations of uric acid and to relieve the pain of bladder stones and gravel. Used to alleviate chronic cystitis. It may also help where bed wetting is a problem.

Pumpkin Seed Oil – 333 mg, per ¼ tsp

Contains B vitamins, essential fatty acids, protein and zinc. Useful for prostate disorders. Acts as anthelmintic. Pumpkin Seed Oil is also useful for healing wounds, especially burns and chapped skin.

Natural Progesterone – 30mg per ¼ tsp

Derived from the Mexican wild yam root or soy. These sterols are processed through several fermentation steps to yield progesterone which is identical to the progesterone produced by the human body. Prostate Care uses only the Dioscorea barbasco which is the purest and most expensive form of natural progesterone.

Natural Vitamin C – 1000 mg, per ¼ tsp

Prostate Care uses Ascorbic Acid from Malpighia punicifolia, the Acerola cherry. Vitamin C is a very powerful antioxidant that also protects other antioxidants, such as vitamin E. The cells of the brain and spinal cord, which frequently incur free radical damage, can be protected by significant amounts of vitamin C. Vitamin C acts as a more potent free radical scavenger in the presence of a bioflavonoid called hesperidin. In addition to its role as an antioxidant, vitamin C detoxifies many harmful substances and plays a key role in immunity. It increases the synthesis of interferon, a natural antiviral product.
